

VALUE TRANSFORMATION SERVICES

an IBM subsidiary

On September 2013 **UniCredit and IBM** entered into a **strategic partnership** forming a joint venture named **Value Transformation Services** aimed to design, implement and manage a wide European transformation projects that **will bring the UniCredit Group IT infrastructure and other new banking clients to a whole new level of efficiency.**

V-TServices operates in 6 countries (Italy, Germany, Austria, Slovakia, Czech Republic and Hungary) **managing and transforming** the full Information Technology infrastructure for approximately **100 commercial banks of the UniCredit Group** in Europe.

Innovation and transformation are the foundation of V-TServices operations: a vast pool of skills and knowledge coming from **1000+ employees selected both from UBIS and IBM**, combined with the deployment of fine tuned **IBM tools, processes and methodologies**, as well as with high quality **networks and datacenters** put V-TServices in the best possible position to provide **services excellence to our clients**

With these strengths, Value Transformation Services represents a new reality which has **no equal on the market in terms of expertise and business model**, with a whole new class of assets that will **allow clients to outpace the market leveraging innovation and setting a new efficiency standard in the banking industry.**
